Portfolio

Career Objective

Highly motivated Computer Engineering Student, eager to learn and apply knowledge to real-world challenges and gain knowledge from Industry experts to Increase my Technical prowess. Intend to build a career with an organization,where I can implement my Theoretical Logical,Technical Skills in the practical real life environment with committed and dedicated people.

Education

Viva Institute of Technology **Nov 2022 - Jun2026**
-Bachelor of Engineering, ***Computer Science Engineering*** *(CGPA- 7.1),* **mumbai**

Sheth G.H. High School & Junior College of Commerce And Science **Jun 2020 - March 2022**
Percentage-56.50% **mumbai**

Shree Vishwakarma High School **Apr 2011 - March 2020**
Percentage-79.80% **mumbai**

Experience

VCL Academy **Nov 2022 - Dec 2022**
-Blue Team Cyber Security Intern **Remote**

- Completed Blue Team Cyber Security Internship via VCL Academy, gaining experience in defensive security strategies
- Focused on threat detection, incident response, and network monitoring through video-based learning.

YBI Foundation **Dec 2022 - Jan 2023**
-Data Science Intern **Remote**

- Developed various ML projects based on Disease And used **Python, TensorFlow** and many MLand DL algorithms.
- Designed recommendation system for existing system by using **ML** Algorithm and connected with **Flask API**.

Technical Projects

Book Recommendation System |html,css,java script,machine learning| *Github*

- Developed an ML-based Book Recommendation System using Python and Jupyter Notebook, implementing content-based, collaborative, and hybrid recommendation techniques to provide personalized book suggestions.
- Containerized the application using Dockerfile for easy deployment, enabling a scalable and user-friendly recommendation solution.

InSightSphere: Intelligent Analysis of Regional News

- Developed a transformer-based NLP model for sentiment analysis of 20,518 Marathi news headlines, achieving 83.18% classification accuracy using a fine-tuned SA-MahaBERT model.
- Fine-tuned the SA-MahaBERT transformer by optimizing task-specific hyperparameters and compared its performance with XLM-R and Baseline MahaBERT for positive, negative, and neutral sentiment classification.

Skills

Programming Languages: Java, JavaScript, SQL
Web Development: HTML, CSS

Certificates

- Certified by VCL Academy in Cyber Security (2022)
- Certified by EDBA Academy in MERN Stack Development (2024)

Achievement

- Participated on Smart India Hackathon at campus Internal Hackathon (2024)
- Published a research paper in an IEEE conference (2026) link.
- Participated on Imperia (Intercollegiate project competition) (2026)
